

Trembling Leaf

Trembling leaf
so hard to believe
so many seasons between

You and me
trembling leaf
so many seasons between

How you loved me so
then I let you go, let you go
By the side of the road
long ago, long ago

On the road today
in this old Chevrolet
wondering if maybe I lost my way

Going way upstream
lost in my dreams
I've been living my life lost in my dreams

Hillside golden brown
your hair tumbling down, tumbling down
Blue sky all around
your hair tumbling down, tumbling down

Trembling leaf
so hard to believe
so many seasons between
